SeaChange back as XOR Media

The SeaChange Broadcast Servers & Storage group returns to BroadcastAsia this year as XOR Media.

The newly independent company will showcase its open, cloud-capable and media-centric technologies trusted by broadcast and media companies around the world, at **booth**

4K1-06, starting with a series of Universal MediaLibrary (UML) storage models boasting simultaneous NAS and SAN access. The UML is seamlessly expandable in a scale-out NAS configuration supporting over 140PB of content.

XOR Media will also provide the central storage and playout system for BroadcastAsia2012's Over-the-Top (OTT) Technology exhibit.
